This week we have had quite a few tortoises rehomed with us (2 of which had paint painted on their shells) A mole snake had to be euthanised due to having had boiling water thrown over the body, a little gecko needing a little bit of extra TLC was also entrusted to us [Minimoshows Reptile Edutainment](#) and [Cape Point Reptile Rehabilitation Centre](#) This is but a few of the many cases we deal with on a daily basis and continue (30 years and counting 😊) By choice and out of respect for the animals concerned, have I chosen not to share any photographs. Respect for all living creatures, is of vital importance 🙏
